

# Materials that can be composted

## GREENS

Egg shells, fruit & vegetable scraps

Grass, weed & plant clippings

Coffee grounds, filters & tea bags

Manure (not dog or cat)

## BROWNS

Dried leaves & twigs

Straw & Hay

Pine needles & pine cones

Wood chips, tree bark & sawdust

## Caution

**Meat & Dairy** cause odor problems and attract pests.

**Fats, grease, & oils** cause odor problems and attract pests.

Diseased plants, black walnuts & chemicals can contaminate compost.

## Tips

Layer 2/3 browns and 1/3 greens

Too many greens = STINKY, Cover greens with browns

Moisture helps compost breakdown
